

CIVIL AIR PATROL ALLOWANCE STANDARD

ORGANIZATIONAL SUPPORT EQUIPMENT (NON-COMMUNICATION)

I. ALLOWANCE STANDARD INSTRUCTIONS

- A. Purpose
- B. Special Information
- C. Use of Allowance Standard
- D. Contact for Changes

II. ALLOWANCE STANDARD MISSION SEQUENCE

III. ALLOWANCE STANDARD NOUN SEQUENCE

I. Civil Air Patrol Organizational Non-Communication Support Equipment Allowance Standard

A. Purpose:

The purpose of this standard is to prescribe organizational, non-communication support equipment, required by Civil Air Patrol units in performance of the assigned missions of Emergency Services (ES), Cadet Programs (CP), Aerospace Education (AE) and all other missions as directed by the National Commander/Executive Director.

B. Special Information:

1. Recommended changes to this allowance standard will be forwarded to NHQ CAP/LGS.
2. A complete review of this standard will be accomplished biennially.
3. The standard is sorted by end item and mission applications.
4. All non-expendable items are accountable. Non-expendable assets valued at \$2000 or more, life support, and pilferable assets will be accounted for on the NHQ database. The NHQ database can also be used to locally account for other non-expendable items. If the NHQ database is not used to track these items, a locally devised accounting system must be used. Commanders will enforce supply discipline to prevent misuse, abuse, or pilferage.
5. These provisions are not intended to restrict commanders' prerogative but to provide a guide in managing resources effectively and efficiently.

C. Use of Allowance Standard:

1. Search by noun shows all nouns and associated missions.
 - a. Locate line item that best fits your mission
 - b. Check approval level, basis of issue, and special instructions to ensure you are allowed the asset.
 - c. Get written approval from appropriate level referencing the item number from the Allowance Standard.
 - d. Acquire asset and process IAW CAPR 67-1 upon receipt
2. Search by mission shows all assets currently allowed for a particular mission
 - a. Locate line item required that best fits your mission
 - b. Check approval level, basis of issue, and special instructions to ensure you are allowed the asset.
 - c. Get approval from appropriate level referencing the item number from the Allowance Standard.
 - d. Acquire asset and process IAW CAPR 67-1

3. Assets not found or deviation of any element in the allowance standard
 - a. Prepare letter of justification to include brief description of asset, NSN (if available), mission supported (Emergency Services, Cadet Programs, Aerospace Education, Administration) and quantity required (e.g., how many required per individual, per unit)
 - b. Forward to NHQ CAP/LGS through the CAP region directors of logistics for approval.
 - c. If approved, NHQ will forward approval to requesting unit through the CAP region directors of logistics. For DRMO withdrawals, NHQ will request approval from the CAP-USAF Liaison Region Director of Logistics. If approved, CAP-USAF LR/LG will provide a FX document number for withdrawal.
 - d. Proceed with acquisition and process receipt IAW CAPR 67-1

D. Contact for Changes

Contact NHQ/LGS by letter, fax, telecom, or email at:

NHQ CAP/LGS
105 S. Hansell Street
Maxwell AFB, AL 36112

Commercial Voice: 334-953-2945
