

# CADET PUBLICATIONS BY OLD & NEW NUMERICAL REFERENCES

The Cadet Programs family of publications is transitioning its numerical designation from the 52 series to the 60 series, as part of the CAP-wide publication reengineering project. To aid the community in that transition, what follows is a side-by-side comparison of the “old” and “new” numerical systems. The transition is expected to be completed in 2019. Until then, members could see both the “old” and “new” numerical system in use.

Old Numerical Reference System	New Numerical Reference System
