

Civil Air Patrol

National Incident Management System (NIMS) 2016 Refresh Lt Col Bob Ditch HQ CAP/DOSI

Webinar Presenters

John Desmarais Director of Operations National Headquarters

Lt Col Bob Ditch
IAEM & EMI Liaison
National Headquarters

- Members in the field will be in listen only mode.
 We have several hundred members signed up, so having everyone with an open microphone is not supportable.
- We will try to answer questions throughout the webinar though. Just type your questions, and we will either answer you directly via text or provide a voice answer to your question.
- The webinar itself, questions, and chat log are being recorded, so please remain respectful.

National Incident Management System (NIMS) 2016 Refresh

Agenda

- 2003/2008: HSPD-5 and NIMS
- 2016 NIMS Refresh
- Incident Management System Changes
- Center Management System
- National Qualification System

Homeland Security Presidential Directive – 5 (HSPD-5)

28 February 2003

Management of Domestic Incidents

- Reflected a Comprehensive Revision of Previous Published Directives & Executive Orders
- Established the Secretary of Homeland Security and the Department of Homeland Security (DHS): For coordinating operations within the U.S. to prepare for, respond to, and recover from terrorist attacks, and major disasters.
- Expanded on the Homeland Security Act of 2002
 Emergency preparedness/response and coordination within the Federal Government, with state/local/tribal governments, and Private Sector.

HSPD-5

Tasked the Secretary for Homeland Security to Administer;

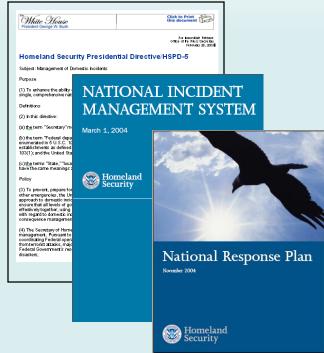

- A National Response Plan (NRP) to provide structure and mechanisms for national level policy and operational direction for response support to State & Local Incident Commanders
- A National Incident Management System (NIMS) to provide a consistent approach to coordination, interoperability, unified command, training, and resource management.

HSPD-5

Directed implementation of the National Incident Management System (NIMS) and National Response Plan (NRP) by all federal agencies and departments

NIMS used for <u>all</u> emergency responses

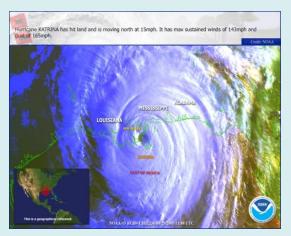

NIMS Concepts and Principles

NIMS Provides ...

- ... a <u>flexible framework</u> that facilitates government and private entities at all levels working together to manage domestic incidents.
- ... a set of <u>standardized organizational</u> <u>structures</u>, as well as requirements for processes, and systems designed to improve interoperability

Original NIMS Components

- Command & Management
- Preparedness
- Resource Management
- Communications & Info and Management
- Supporting Technologies
- On-going management and maintenance

Command & Management

- NIMS Standardized Incident Management Structures are based on three key organizational systems, Including...
 - The Incident Command System (ICS) which defines operating characteristics, management components, and structures of incident management organizations throughout life-cycle of incident.
 - Multiagency Coordination Systems (MACS) which define operating characteristics, management components, and organizational structure of supporting entities.
 - Public Information Systems, which include processes, procedures, and systems for communicating timely an accurate information to public.

NIMS Refresh

National Engagement

National Preparedness Directorate / National Integration Center

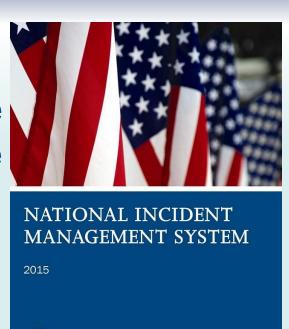

May 3, 2016

Learn more: www.fema.gov/national-incident-management-system Send us e-mail: FEMA-NIMS@fema.dhs.gov

- NIMS continues to provide a consistent and common nationwide approach and vocabulary to enable the whole community to work together seamlessly and manage all threats and hazards.
- NIMS applies to all incidents, regardless of cause, size or complexity

Homeland

- FEMA is leading nation-wide effort for review/refresh.
- The draft of the refreshed NIMS retains key concepts and principles from the 2004 and 2008 versions; incorporating policy updates/lessons learned from exercises/incidents.
- The National Engagement Period provided interested parties the opportunity to comment reflecting expertise and experience of the whole community.
- The current draft was provided for public comment until May 9, 2016.

- Incorporates lessons learned from exercises and incidents, policy updates, and progress in resource typing and credentialing;
- Clarifies that NIMS is more than just ICS and that it applies to stakeholders across all five mission areas (Prevention, Protection, Mitigation, Response and Recovery).
- Provides a common structure and activation levels for operations and coordination centers.
- Explains the relationship of ICS to the new Center Management System (CMS) and Multiagency Coordination Groups (MAC Groups)
- Enhances guidance on information management processes.

2008 NIMS Organization

- Introduction
- Preparedness
- Communications and Information Management
- Resource Management
- Command and Management
- Ongoing Management and Maintenance
- Appendices
 - Resource Typing
 - ICS

Refreshed NIMS Organization

- Fundamentals and Concepts of NIMS
- Resource Management
- Management and Coordination
 - ICS
 - Center Management System (CMS)
 - Multiagency Coordination Group
 - Joint Information System (JIS)
 - Interconnectivity of NIMS
 Management and Coordination
 Structures
- Communications and Information Management
- Conclusion
- ICS Appendix
- CMS Appendix

Refresh by Component

Fundamentals and Concepts

- ☐ Includes:
 - ☐ High-level summary of how NIMS can be used
 - Brief history of the doctrine
 - □ Description of the NIMS guiding principles:
 - □ Flexibility
 - □ Standardization
 - ☐ Unity of Effort
 - Overview of the NIMS components

Unity of Effort

- Means coordinating activities among various organizations to achieve common objectives.
- Enables organizations with jurisdictional authority or functional responsibilities to support each other
- Allows each agency to maintain its own authority/accountability.

Refresh by Component: Resource Management

Resource Management

- Describes standard mechanisms for collaboration and coordination across jurisdictions and organizations to systematically manage resources, including personnel, equipment, teams and facilities.
- Reflects progress in resource typing and credentialing since 2008.
- Builds a foundation for the development and employment of a National Qualification System.

Command Management and Coordination

- Renamed to better reflect the variety of component applications
 - Incident Command System (ICS) applies to tactical activities to stabilize incidents, save lives, and protect property/environment.
 - Center Management System (CMS) applies to incident support activities including strategic coordination, resource acquisition and information gathering.
 - Multiagency Coordination Group (MAC Group) applies to senior level decision making.
 - Joint Information System (JIS) guidance applies to activities surrounding outreach/communication with the media and public.

Management and Coordination

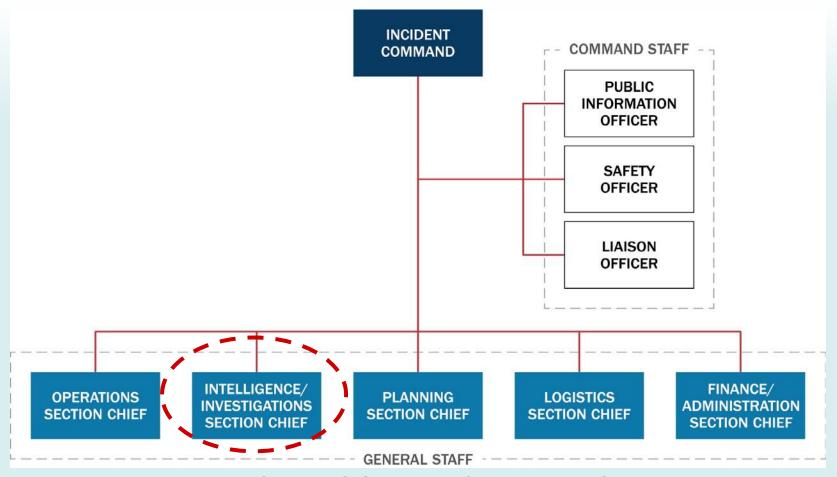

- Describes high-level functions of each ICS and CMS section; with detailed descriptions of units/groups are in appendices.
- Provides CMS guidance for operations and coordination centers.(e.g. HHS SOC and both local/state EOCs and Health/Medical DOCs).
- Clarifies role of focus for MAC Groups.
- Does not propose changes to ICS.
- Incorporates the Intelligence and Investigations Section

Which Management Structure Applies?

- ICS/UCS at the incident level
- The CMS at the operations/
 coordination level
- MAC Groups at the policy/executive level
- JIS to coordinate public information

Incident Command System Structure

Refresh by Component: Management and Coordination

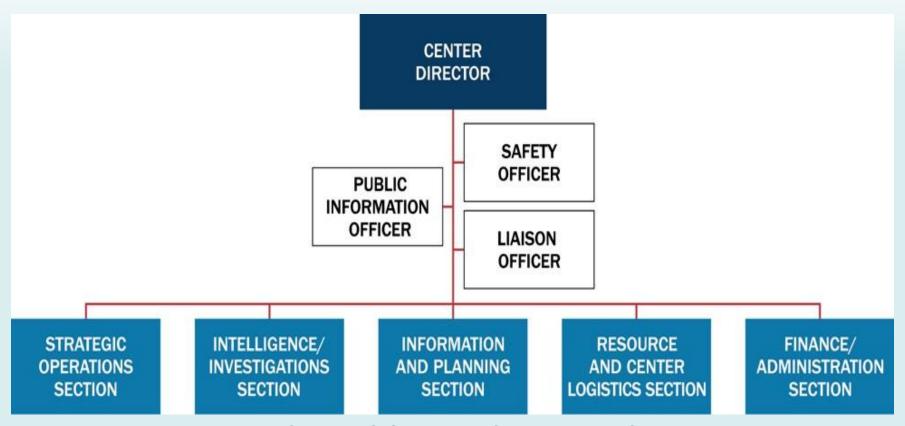

Center Management System (CMS)

- Describes common functions, organizational structure and terminology for staff working in operation/coordination centers, including DOCs and EOCs at all levels.
- Enables the integration/sharing of personnel among operations and coordination centers nationwide, at all levels of government.
- Enables overwhelmed EOCs across the nation to ask for the support they need through mutual aid, and have confidence that the personnel they receive will be experienced and qualified.
- Developed with input from EOC leaders across the nation.

Refresh by Component: Management and Coordination

CMS Top-Level Management Structure

CMS Section Responsibilities

Strategic Operations

Coordinates with personnel at the incident; identifying unmet needs

Intelligence/Investigations

 Integrates intel/info collection, analysis and sharing, as well as investigations

Information and Planning

- Manages situational awareness efforts and develops Resource and Center Logistics
- Sources and procures resources, including for center staff

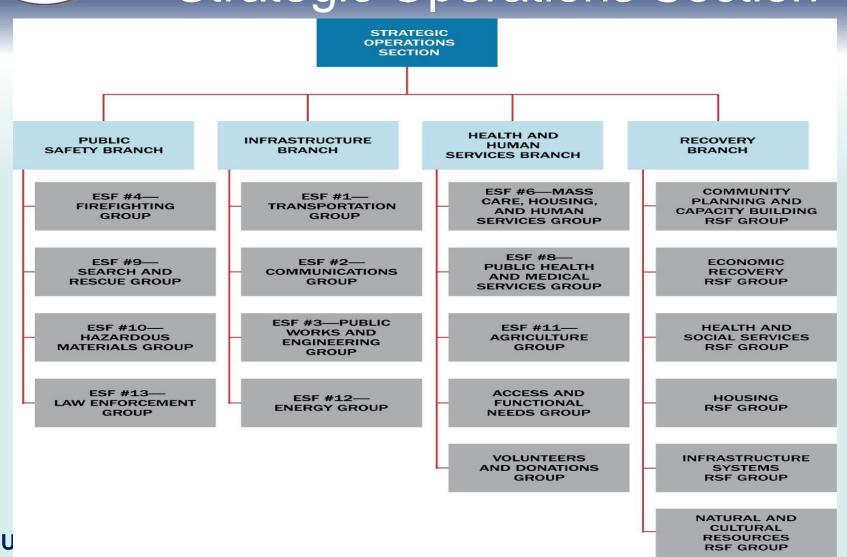

Finance/Administration

Manages all financial, administrative and cost analysis aspects

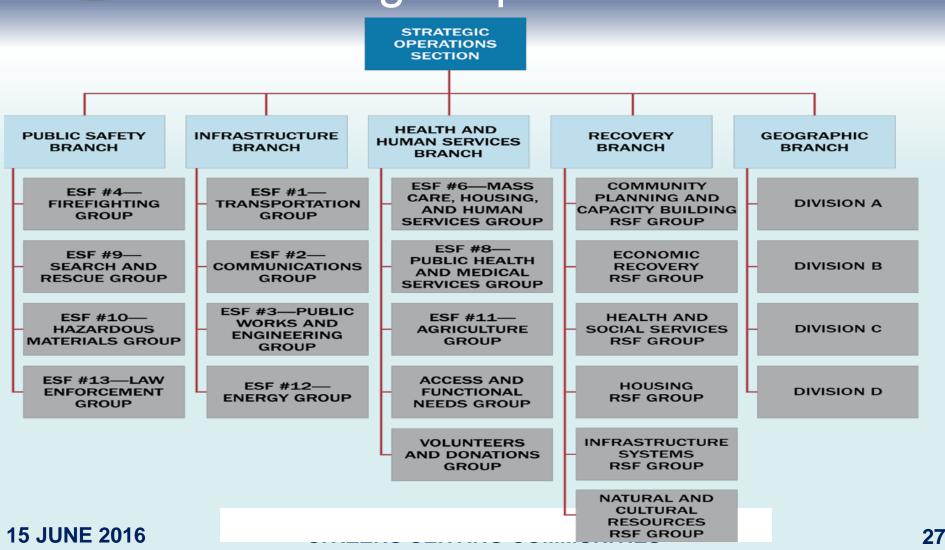

Strategic Operations Section

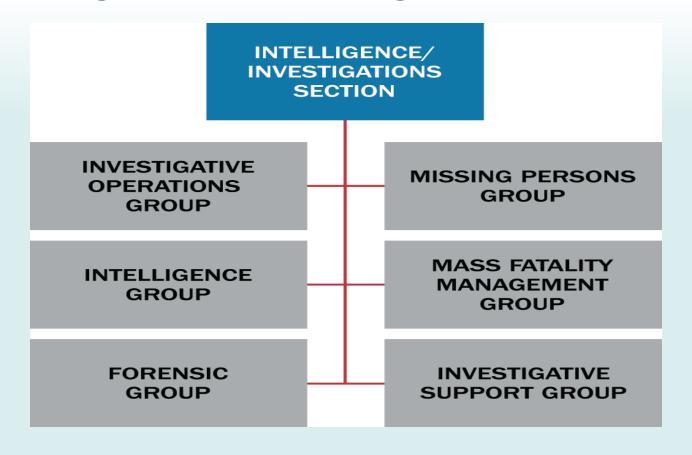

Strategic Operations Section

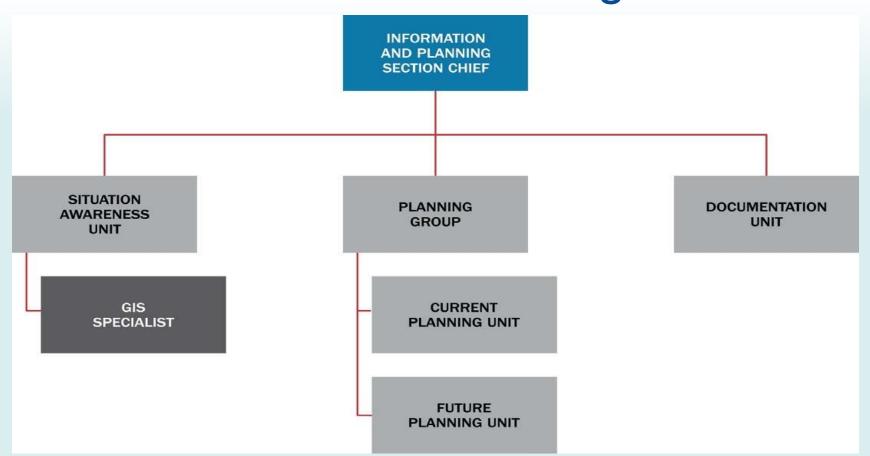

CMS Sections

Intelligence/Investigations Section

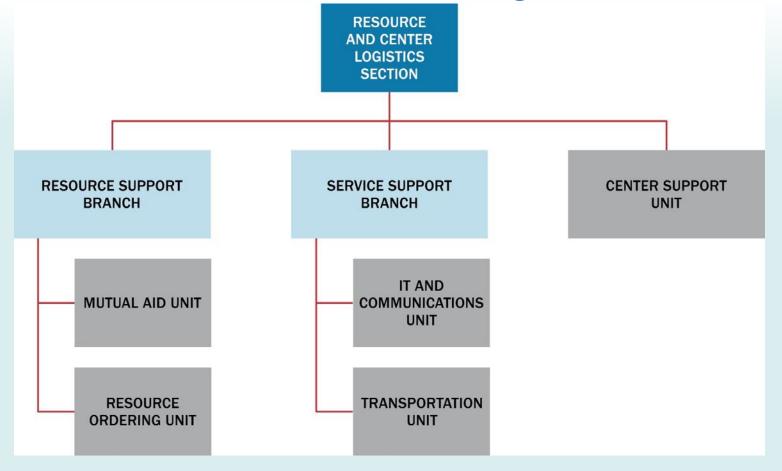

Information and Planning Section

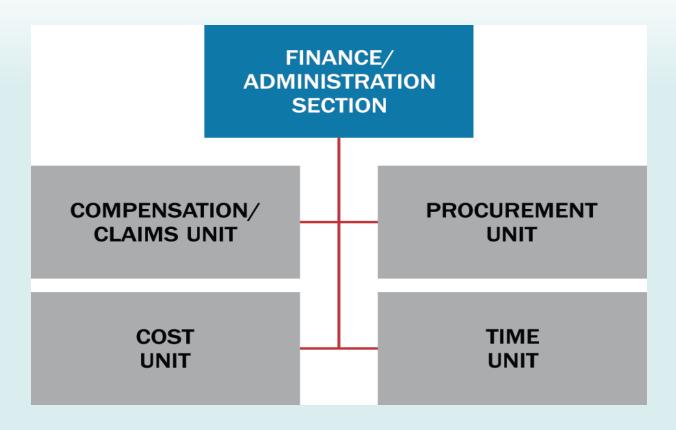

Resource and Center Logistics Section

Finance/Administration Section

Example CMS Staffing in a Small EOC

CMS Activation Levels

Activation Level		Description	Staffing
4	Normal Operations/ Steady State	Routine monitoring of situationNo event or incident anticipated	 Center not staffed; possibly not configured for operations
3	Enhanced Steady-State	 A situation or threat has developed that requires enhanced monitoring and coordination between jurisdictions and agencies 	 Center is staffed with a few personnel focused on situational awareness
2	Partial	 A situation or threat has developed that requires coordination extending beyond the normal workday and that requires 24/7 monitoring 	 Center is partially staffed; limited or partial liaison support (based on the needs of the incident)
1	Full	 Incident of such magnitude that it requires or may require extensive response and recovery efforts and significant resources A situation or threat has developed that requires 24/7 coordination, monitoring, and support 	 All General Staff positions activated; including applicable liaison positions Operations being conducted on a 24 hour basis

National Qualification System

- Coming in 2016!
- Will supplement NIMS Resource Management.
- Participation will be optional. Will enable effective and efficient sharing of personnel resources for mutual aid.
- Will enable the alignment of individual qualification systems to baseline polices and processes to enable positions to meet standardized qualifications.

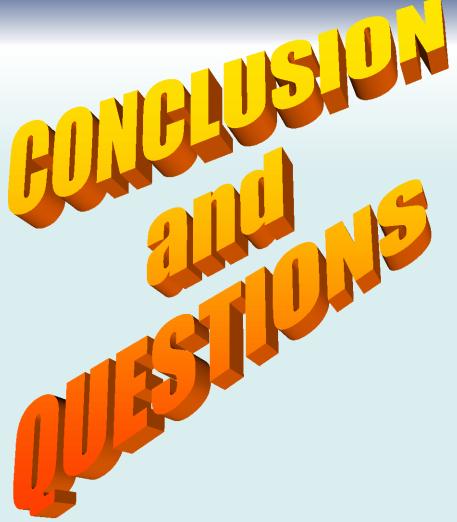

... "WE SOMETIMES CHAFE AT THE BURDEN OF OUR OBLIGATIONS, THE COMPLEXITY OF OUR DECISIONS,....

BUT THERE IS NO
COMFORT OR SECURITY
FOR US IN EVASIONS, NO
SOLUTION IN ABDICATION,
NO RELIEF IN
IRRESPONSIBILITY'... JFK
