COVID-19 Remobilization of the Membership Plan – Phase I

This plan has been developed for California Wing, using the template provided by the Civil Air Patrol National Headquarters to enter Phase I, Resuming Regularly Scheduled Meetings.

Additional staffing and resources have been coordinated with N/A, to cover gaps in this wing's available resources.

NOTE: Deviations from the template are authorized, but should be coordinated by contacting the COVID-19 Planning Team at COVID-19Plans@capnhq.gov.

Narrative Summary of Coordination and Events To-Date in California Wing:

On 31 Mar 2020, Col. Ross Veta hand selected a Crisis Management Team to help guide him through this pandemic and the problems associated therewith. This team consists of the Vice-Commander, Wing Directors of Operations, Cadet Programs, Emergency Services, Safety, Health Services Officer, Wing Chaplain, CISM Team members, a group Medical Officer and the chairman of the newly formed Virtual Wing Incident Command established to evaluate and coordinate mission requests. This team has met regularly for the past several months to evaluate and make recommendations to Col. Veta on multiple matters including missions to accept, protection of personnel, sanitation of vehicles and aircraft, acquiring personal protective equipment, protection of assets during periods of civil unrest as well as re-mobilization plans for the wing. We have also received valuable assistance from the Wing Legal and Professional Development Officers. The state of California has been under various "stay at home orders" issued by Governor Newsom. Recently, the state has removed the latest "stay at home order" and moved into a phased reopening of the state with variations allowed on a county-by-county basis. The state of California has a significant variability in population density, infection rates, testing performed, ICU bed utilization, and contact tracing among its counties. Our team has spent a considerable amount of time discussing and developing a plan that will allow some groups to move from Phase 0 into Phase 1 depending on metrics from the covidactnow.org site as well as the California Department of Public Health, county departments of public health, and reports from physicians on the front lines. We feel that this plan will allow some areas to move into Phase 1 with safety and provide enduring health. This plan will also allow other groups in the state to move into Phase 1 as their metrics, based on the above data sources, improve.

We are requesting a transition into Phase 1 for four groups in California beginning 15 Feb 2021. The counties that comprise northern California

(Group 5), the San Francisco Bay area (Group 2), Orange county (Group 7), and San Diego county (Group 8) all have low infection rates (<1.0) which have remained stable for 2 weeks and less than 50 reported new infections/100,000 people/day which has also remained stable for 2 weeks. The other areas (groups) of California are not yet able to move safely into Phase I of the re-mobilization plan for CAP, but as they become so we would like to proceed with re-mobilizing them as well. We will closely monitor all areas and groups in the state for stability once they have moved into Phase 1 to determine if we can submit a plan for progressing to Phase 2 or the necessity to revert to phase 0 for safety.

MEMORANDUM FOR All Unit Members

FROM: XXXXXXXXX

SUBJECT: Return to Squadron Meetings – Phase 1

1. As the state of California attempts to return to normal following the COVID-19 epidemic, we are entering a new state of “normal”. In an effort to allow our members to return to small, in-person meetings, the following procedures will be implemented in an effort to follow all guidelines from the White House COVID-19 Task Force, the Centers for Disease Control and Prevention, and local Health Department Orders. As additional information is issued from higher headquarters, we will adjust our procedures accordingly. We ask that during this time, you please remain vigilant and flexible as we return to small, in-person meetings. With the occurrence of the new virus variants that may be more communicable, please realize that our entry into Phase 1 could easily slide back into Phase 0 again if infections rise. Be mentally and physically prepared for that possibility.

2. XXXXXXXX (Composite, Senior) Squadron will return to small, “in-person” meetings on XXXXXX. The unit will continue to meet on the TEAMS or Zoom platform at XXXXXXXXXXXX. The unit will also continue its normal meeting time from XXXXXXXXXXXX. To keep our members safe, the following procedures will be followed by all members until rescinded by the unit commander:

A. All meetings will be limited to 10 or less individuals in attendance.

COVID-19 Remobilization of the Membership Plan – Phase I

B. All members attending any meetings will be of good health and self-identified as low risk. Any member having any of the following symptoms will abstain from attending the weekly meetings:

- (1) Fever (100.4 degrees F or higher)
- (2) Cough (non-productive) of an unknown origin

- (3) Shortness of Breath/Difficulty Breathing
- (4) Chills
- (5) Repeated shaking with chills
- (6) Muscle pain
- (7) Headache
- (8) Sore throat
- (9) New loss of taste or smell

C. Senior executive staff may arrive between XXXXXXXX to have a staff meeting and get information needed for the evening. Members not on senior executive staff should not arrive prior to XXXX. Upon arrival, all members will have their temperature taken via a non-contact method (i.e.: infra-red temple thermometer). All temperatures will be documented. Anyone displaying a fever will be instructed to return home and not attend the meeting.

Facemasks prevent the spread of respiratory droplets that may contain infectious virus through the air. All members will be required to wear face covering/mask while in attendance. Facemasks may be homemade or may be commercially purchased (i.e. medical grade surgical/simple mask). Masks will be placed on the member prior to exiting their vehicle upon arrival and will remain on until they have re-entered their car that the end of the meeting. Masks will be conservative in nature, solid colors that complement and respect the United States Air Force uniform.

Social distancing guidelines will be followed at all times. Meetings will be held outside if possible and will have chairs spaced 6 feet apart. If this is not possible, meetings may be split up so that social distancing can be obtained. All members will maintain six feet separation.

Prior to the meeting, Senior Executive Staff will sanitize all surfaces of chairs, tables, etc. that members may come in contact with throughout the meeting. This process will be repeated at least 1 time during the course of the meeting and then again prior to leaving the meeting.

Proper hand washing will be encouraged and maintained throughout the meeting. If possible, the unit will provide hand sanitizer for members to use throughout the meeting. If hand sanitizer is not available, members will be encouraged to use the “old fashioned” method of washing with soap and water. Members will wash their hands on a regular basis throughout the meeting. Essentially wash or sanitize hands before the meeting, at the break and after the meeting ends.

Proper hygiene will be used at all times. Members are asked to cover their coughs or sneezes into a tissue or their elbow to help cut down on particulate spread. We understand that we will soon be entering allergy season and these are sometimes difficult to avoid.

These policies and procedures will go into effect upon the unit’s return to small, in-person meetings. Given the uncertainty of the pandemic, members who do not wish to return to unit meetings may do so without untoward effect on their membership. Please contact your chain of command to notify them of your absence in this situation. Please include how long the absence is expected to last and we encourage your virtual participation if possible.

These policies are subject to change based upon additional policies and information given by both California Wing Headquarters and National Headquarters, or local health department guidelines.
