

CPPT Basic Step by Step in Absorb Help Guide

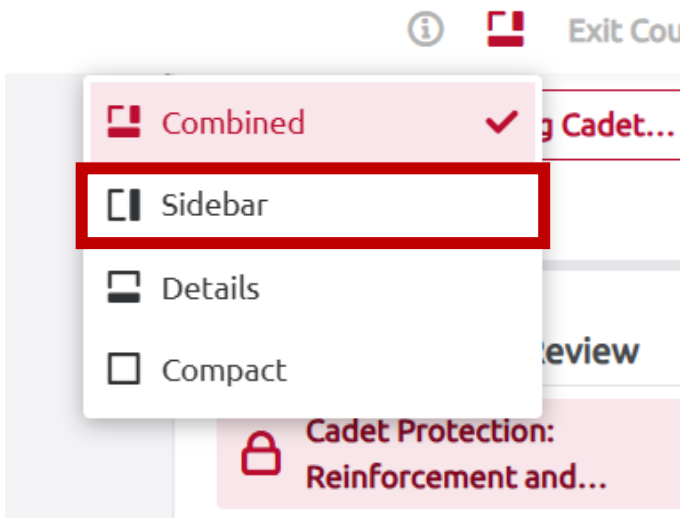

Click on **“Re-enroll”** and then **“Start.”** If your course just says “Start” – you’re good to proceed as well.

Before starting the course, familiarize yourself with the set-up. Check out the different view options (Choose View button), and the course outline (3 modules with a short quiz, with an Acknowledgement assessment at the end).

If you click the icon next to Exit Course, you can change the view on your screen. **I would suggest the second option, sidebar – so you can see the course content & your progress.**

First, read the Honor Statement, check that you understand, and click **Start Course**.

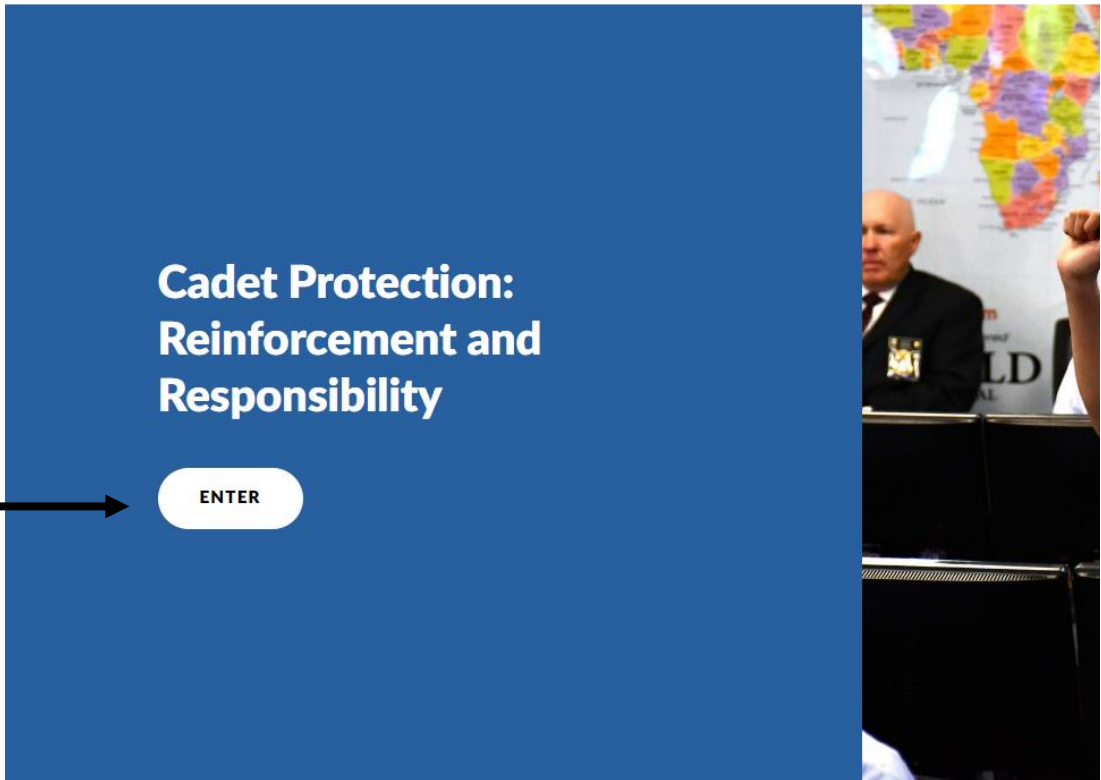

By acknowledging this statement you understand what credit is at this course and that it will not satisfy your cadet protection credit required to complete the Advanced Course instead.
