 UNITED STATES AIR FORCE AUXILIARY
 MAXWELL AIR FORCE BASE, ALABAMA 36112-5937

ICL 17-01
 11 October 2016

MEMORANDUM FOR ALL CAP UNIT COMMANDERS

FROM: CAP/CC

SUBJECT: Interim Change Letter – CAPR 173-3, *Payment for Mission Support*

1. CAPR 173-3 will soon begin revision as a part of the publications reengineering project. This interim change letter will remain in effect until the new regulation is complete and published; there is no expiration date on this change letter, but we expect a new regulation to be published in FY17.

2. Each year the staff reviews the reimbursement rates in CAPR 173-3. The following changes are effective on the 1st of January 2017:

Attachment 1, Table 1 is changed to:

Manufacturer	Cessna	Cessna	Cessna	Cessna	Cessna	Gippsland	Maule
Model	172	182	SP 182Q	A185F	206	GA-8	MT-7-235
Cost/hour	\$49	\$57	\$82	\$95	\$72	\$62	\$70

Attachment 1, Table 2 is changed to:

Manufacturer	Cessna	Cessna	Cessna	Cessna	Cessna	Gippsland	Maule
Model	172	182	SP 182Q	A185F	206	GA-8	MT-7-235
Cost/hour	\$65	\$76	\$90	\$130	\$111	\$100	\$123

Attachment 1, Note 1 is changed to:

1. “Basic Hourly Rate” for single-engine member-owned/furnished aircraft not listed above: \$49.

Attachment 1, Note 8 is changed to:

8. Aerial imaging systems other than ARCHER (see note 9) Rate. CAP will charge an additional \$10 an hour rate to operate and maintain these systems, but only when supporting missions that are not funded with CAP’s annual Congressional appropriation, or when members are funding training personally. The money collected for operation from these missions must be forwarded to NHQ. The hourly charge to operate these systems will begin when the aircraft departs to execute the sortie and ends when the aircraft returns. The rate will not be charged on purely relocation flights where systems are not operated en route.

3. Any questions can be directed to my Director of Operations, John Desmarais, at jdesmarais@capnhq.gov or 1-888-211-1812 extension 301.

JOSEPH R. VAZQUEZ
Major General, CAP
Commander
