

MONTANA WING SUPPLEMENT 1

CAP REGULATION 130-2

1 April 2024

APPROVED/R. KIRKPATRICK/CAP/LG

Aircraft Maintenance

CIVIL AIR PATROL AIRCRAFT MAINTENANCE MANAGEMENT

CAPR 130-2, dated 6 October 2023, is supplemented as follows:

{2.3.1. Added.} The Montana Wing Commander will appoint a Wing Aircraft Maintenance Officer (WG/AMO) to manage the maintenance of the assigned aircraft. Each Squadron/Flight within the Wing will assign a Squadron Maintenance Officer (SAMO) before an aircraft is assigned to that unit who will be subordinate to the Wing Aircraft Maintenance Officer. The MTWG/AMO will follow the MTWG/AMO Training Plan.

{2.3.2. Added.} The WG/AMO is responsible for supervision of the overall maintenance of the wing aircraft fleet.

{2.3.3. Added.} SAMOs are responsible to the WG/AMO, to supervise the care and maintenance of corporate aircraft under their control. Their duties shall include:

{2.3.4. Added.} Quarterly: (Jan, Apr, Jul, Oct)

{2.3.4.1. Added.} Conduct aircraft inspection using the CAPF 71, CAP Aircraft Inspection Checklist and forward the completed CAP Forms 71 to the WG/AMO. A copy of the completed annual Form 71 will be uploaded to AMRAD.

{2.3.4.2. Added.} Conduct an inspection of the aircraft Survival Kit. File a copy of the inspection in the survival kit.

{2.3.4.3. Added.} Review the AIF for completeness and currency and enter the date reviewed at the top of the AIF. Write in the weight of the Survival Kit, Ground Power Unit, Tie-Down Equipment, and any other aircraft equipment in the Loose/Removable Equipment Section of the AIF Coversheet, page 2. Write in the equipment name and weight if not already listed.

{2.3.4.4. Added.} Enter the dates of these inspections and reviews on the current month's MTWG Form 10. Prepare and email these documents by the 5th day of Feb, May, Aug, and Nov to WG/DO, AMO.

{2.3.5. Added.} Monthly: (by the 5th day of each month)

{2.3.5.1. Added.} Conduct a review of and update the aircraft discrepancies in AMRAD. Maintain the currency of each aircraft by entering any discrepancy and then the corrective actions when completed. Ensure all other aircraft data, such as inspections, is updated in AMRAD.

{2.3.5.2. Added.} Check the pressure of all tires per CAPR 130-2 and adjust as necessary.

{2.3.5.3. Added.} Prepare and email the MTWG Form 10, Monthly Flying Time Report by the 5th day of the following month to WG/DO, AMO, and Wing Administrator if any pilot “rents” an aircraft.

{2.3.6. Added.} Ensure the oil changes, time service, and annual/100-hr inspections are accomplished before overdue.

{2.3.7. Added.} Coordinate with the WG/AMO for a work approval for all maintenance actions to be provided by an Aircraft Maintenance Facility.

{2.3.8. Added.} Ensure that the aircraft meets FAR requirements for the type of flight to be conducted. For example: the strobes have to work on the G1000 planes day or night.

{2.3.9. Added.} Keep the Navigation Data Base in the G-1000 or GPS system updated.

{2.5. Added.} Montana Wing is under the Consolidated Maintenance Management Program (CMMP). There are two CMMPs in Montana: Edwards Jet Center in Billings and Neptune/Northstar in Missoula. The Wing Aircraft Maintenance Officer or Assistant will authorize maintenance flights (and may release those flights provided they are a Wing FRO) to/from maintenance facilities (A-9 mission symbol). No approval for any aircraft maintenance shall be made without the prior approval of WG/AMO or Assistant. Alternate approving officials are the WG/DO and the WG/CC.

{2.5.1. Added.} The WG/AMO, SAMO, or the PIC flying the aircraft to/from the maintenance facility will be responsible for the following:

{2.5.1.1. Added.} Coordinate with the WG/AMO or Assistant AMO for delivery of the aircraft to/from the maintenance facility.

{2.5.1.2. Added.} Conduct a face-to-face or telephone meeting with the maintenance facility prior to and after maintenance being performed on an aircraft.

{2.5.1.3. Added.} Prepare a list of maintenance/service items to be accomplished and provide that list to the maintenance facility. Reference the discrepancy list in AMRAD to ensure current discrepancies and time-based inspections are included in the list.

{2.5.1.4. Added.} Obtain an estimate for labor/parts from all non-CMMP maintenance facilities and transmit that estimate to the WG/AMO for approval prior to the maintenance. Any maintenance costs incurred without prior approval from the WG/AMO or Aircraft Maintenance Coordinator may not be reimbursable and will be the responsibility of the individual/unit.

{2.5.1.5. Added.} Inspect the aircraft and maintenance logbooks upon completion of maintenance or service, to ensure that the maintenance was performed and that logbook entries were properly and completely documented.

{2.6. Added.} Corporate aircraft will be assigned or reassigned only with prior approval of the WG/DO and concurrence of the WG/CC. Squadrons that are assigned (have an aircraft stationed their location and intended for their use) corporate aircraft are responsible for the control, supervision, and maintenance of that aircraft. Minor maintenance and organizational maintenance as outlined in CAPR 130-2 Para 11.3 is a squadron responsibility. Any equipment added to any corporate aircraft becomes the property of CAP

even though acquired through squadron sources. Said items are fully donated and the donor cannot be compensated for them in any way. It must be clearly understood that aircraft are assigned for the purpose of carrying out the Civil Air Patrol mission, and, as with all corporate equipment, the assigned unit is responsible for the proper use and care of the equipment.

{5.9.1. Added.} In the event of any permanent or temporary transfer of aircraft between units of the Wing, the following procedures will apply:

{5.9.2. Added.} The receiving unit shall verify receipt of all items listed on the AIF cover sheet and conduct an inspection (CAPF 71) upon receipt. The CAPF 71 will be forwarded to WG/AMO within one week.

{5.9.3. Added.} All logbooks and equipment will remain with the aircraft.

{5.9.4. Added.} Obtain and transmit (via email or U.S. mail) a copy of the maintenance invoice to the WG/AMO. Send a copy of the logbook entries (scan or photo) to Wing/AMO and Assistant AMO as soon as practical.

{5.9.5. Added.} Coordinate with the WG/AMO or DO for the return of the aircraft to the CAP unit.

{6.11. Added.} The MTWG Form 10, Monthly Flying Time Report, is an Excel spreadsheet used to track monthly flying hours and scheduled maintenance. The form is located on the Wing Website. The CAPF 71, CAP Aircraft Inspection Checklist is an Adobe PDF used to conduct quarterly aircraft inspections.

SPENCER GILCHRIST, Colonel, CAP
Montana Wing Commander
