

Building a Better Tomorrow, One Student at a Time

As the official Auxiliary of the United States Air Force, Civil Air Patrol addresses national issues for the youth of America:

- ◇ Character Development
- ◇ Leadership Training
- ◇ Physical Fitness
- ◇ Academic Rigor & Relevance
- ◇ STEM Career Exploration

Civil Air Patrol's Educator and Youth Development Programs: *Exciting* *Engaging* *Inspiring*

Civil Air Patrol
For program information:

Educator and Youth Development Programs

Setting the moral compass and the academic fortitude to prepare tomorrow's aerospace/STEM workforce.

Civil Air Patrol's Educator and Youth Development Programs

- ⇒ **Teacher Orientation Program (TOP) Flights:** Professional development that teaches and excites educators about flight to share with their students

- ⇒ **K-12 Aerospace Education Excellence (AEX) Award Program:** Focuses students on STEM subject relevance via absorbing, inquiry-based activities

- ⇒ **K-6 Aerospace Connections in Education (ACE) Program:** Engages youth in aerospace-themed STEM, character ed, & physical fitness lessons

- ⇒ **K-12 STEM Kit Program:** Ignites interest in STEM subjects and careers via aviation, space, and cyber topics

Civil Air Patrol: Touching the Future of AMERICA'S YOUTH

- ⇒ CAP provides aerospace/STEM products and programs to educate and ignite the minds, hearts, and spirits of K-12 youth and educators.
- ⇒ CAP educator members integrate aerospace lessons into the curriculum to promote STEM (*science, technology, engineering and math*) subjects and career options for K-12 youth.
- ⇒ CAP's Cadet Program provides a positive group environment for ages 12-20 to foster good character and leadership; enable mentorship; and provide exciting flight and STEM career exploration opportunities.

Col Nicole Malachowski,
First Female Thunderbird Pilot

**Former
CAP
Cadets**

Col Eric Boe,
*STS-126 & 133 Astronaut;
Commercial Space Program Member*

Civil Air Patrol's Aerospace Education Member (AEM) Program

- ⇒ **Aerospace Education Member:** Special category of membership in CAP for any adult who works in any formal or informal educational capacity – educators and youth leaders in classrooms, libraries, museums, etc.

AEMs do not attend meetings or wear a uniform, but work with youth- - guiding them toward healthy, positive & productive goals/future endeavors and STEM careers.

AEMs are entitled to a multitude of FREE aerospace/STEM products and programs to enrich and supplement the core curricula, such as:

- ♦ Over 40 national academic standards-based educational K-12 print & online products, as well as additional free STEM Kits & products for robotics, astronomy, satellite systems, R/C Aircraft, rocketry, flight, engineering, and much more!
- ♦ TOP Flights at local airport
- ♦ \$35 one-time membership fee
- ♦ Find all info at
