NOTE: If supplement is not marked correctly, see D-4 Question 1. All other discrepancies are documented under this question.
| CI  | 02 | Does the Wing AMO or his/her representative inspect each corporate aircraft at least annually? | Does the Wing AMO or his/her representative inspect each corporate aircraft at least annually? | Wing will provide a copy of a CAPF 71 for each aircraft for each of the prior 4 years. 

NOTE: If Wing does not retain aircraft records as permanent, see D-4 question 5. |
|-----|----|-----------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------| (Discrepancy): [xx] (C4 Question 2) Wing failed to provide evidence of having at least annually completed a CAPF 71 inspection of all wing aircraft IAW CAPR 66-1 para 7.4.6. |
|     |    |                                                                                               |                                                                                               | Complete CAPF 71 inspection on all wing aircraft. Attach a copy of CAPFs 71 for all wing aircraft to the Discrepancy Tracking System (DTS). Attach a plan of action, approved by Wing/CC, to prevent reoccurrence to the discrepancy in the DTS. |
| CI  | 03 | Does the wing utilize the online eAircraft Discrepancy System located in WMIRS IAW CAP regulations? | Does the wing utilize the online eAircraft Discrepancy System located in WMIRS IAW CAP regulations? | Verification based on a review of aircraft discrepancies in eAircraft Discrepancy System when compared to CAPFs 71 and log books. 

NOTE: Verify that entries match log book and entries are complete and current. |
|     |    |                                                                                               |                                                                                               | (Discrepancy): [xx] (C4 Question 3) Wing failed to utilize the online eAircraft Discrepancy System located in WMIRS IAW CAPR 66-1 para 8.4. |
|     |    |                                                                                               |                                                                                               | Attach a plan of action, approved by Wing/CC, to prevent reoccurrence to the discrepancy in the Discrepancy Tracking System (DTS). |
Does the wing have a current certificate of insurance on file identifying the liability insurance coverage for all facilities performing maintenance on wing-assigned aircraft?

a) Does the Wing have a current certificate of insurance on file identifying the liability insurance coverage for all facilities performing maintenance on wing-assigned aircraft.

b) Are proper procedures followed if emergency repairs are made at a facility without adequate liability insurance?

Certificates of Insurance: Wing will provide the CI Team with copies of current Certificates of Insurance for all maintenance facilities used by the wing and compare with a list of certificates provided by NHQ/LGM.

a) (Discrepancy): [xx] (C4 Question 4) Wing failed to provide current Certificates of Insurance for all of the maintenance facilities performing maintenance on wing aircraft IAW CAPR 66-1 para 13. NOTE: List all of the facilities with missing Certificates of Insurance.

b) (Discrepancy): [xx] (C4 Question 4) Wing failed to ensure Certificate(s) of Insurance for the following listed maintenance facilities provided the (minimum limits of liability) (or completed operation coverage) (or both) IAW CAPR 66-1 para 13. NOTE: List each facility and describe the deficiency.

a) Obtain Certificates of Insurance for all of the maintenance facilities performing maintenance on wing aircraft. Attach a copy of certificates to the discrepancy in the Discrepancy Tracking System (DTS).

b) Ensure Certificate(s) of Insurance for maintenance facilities provided the (minimum limits of liability) (or completed operation coverage) (or both). Attach a plan of action, approved by Wing/CC, to prevent reoccurrence to the discrepancy in the DTS.
a) Is required periodic maintenance on assigned aircraft accomplished?

NOTE: use 14CFR 91.213 and Aircraft AFM/POH to determine required equipment. If an aircraft needs to be grounded, the inspector will follow CAPR 66-1 and 70-1 requirements for grounding the aircraft, placing the red placard in the aircraft and completing the eAircraft Discrepancy System log entry.

b) Are required logbook entries made for the 100 hour/annual inspection made, Ads and/or Mandatory Service Bulletins on assigned aircraft accomplished?

NOTE: Prior to the most current 100 hour/annual inspection, N____ had exceeded 100 hours between inspections.

b) (Discrepancy): [xx] (C4 Question 5) Wing failed to ensure required logbook entries for the 100 hour/annual inspection done in ___ 20__ on N____ reflected (AD compliance check) (and/or) Mandatory Service Bulletins as listed on CAP website ______ were accomplished during inspection IAW CAPR 66-1 para 8.2.

b) (Discrepancy): [xx] (C4 Question 5) Wing failed to ensure required logbook entries for the 100 hour/annual inspection done in ___ 20__ on N____ reflected (AD compliance check) (and/or) Mandatory Service Bulletins as listed on CAP website ______ were accomplished during inspection IAW CAPR 66-1 para 8.2.

b) (Discrepancy): [xx] (C4 Question 5) Wing failed to ensure required logbook entries for the 100 hour/annual inspection done in ___ 20__ on N____ reflected (AD compliance check) (and/or) Mandatory Service Bulletins as listed on CAP website ______ were accomplished during inspection IAW CAPR 66-1 para 8.2.

b) Coordinate with NHQ/LGM for a letter to be sent to the contract maintenance facility reminding them to conduct an AD compliance check (and/or) Mandatory Service Bulletin compliance check at each 100 hour/annual inspection and to reflect the completion of that check in the logbook entry. Any new AD or recurring AD should be specifically annotated as having been complied with in the logbook entry. Attach a copy of the letter to the discrepancy in the DTS. Attach a plan of action, approved by Wing/CC, to prevent reoccurrence to the discrepancy in the DTS.

c) Are inspection certification of its pitot-static, transponder, and altimeter systems accomplished as required?

c) (Discrepancy): [xx] (C4 Question 5) N____ exceeded 24 months between inspection for and certification of its pitot-static, transponder, and altimeter systems IAW CAPR 66-1 para 7.4.1 and 14CFR Part 43.

c) Attach a copy of the logbook entry(ies) indicating that these inspections have been done and that the instruments met the required testing standards to the discrepancy in the DTS. Attach a plan of action, approved by Wing/CC, to prevent reoccurrence to the discrepancy in the DTS.
- List the dates between each inspection
- This aircraft is grounded for flight under Instrument Flight Rules and flight within controlled airspace until these checks have been completed.
- If the aircraft must be flown to another airport for inspections, the wing must obtain an FAA ferry permit for that flight.

d) (Discrepancy): [xx] (C4 Question 5) The ELT battery on N____ had not been replaced prior to exceeding the replacement date specified by the battery manufacturer (and the aircraft flew with the expired battery) IAW CAPR 66-1 para 7.4.4.
- This aircraft is grounded pending replacement of the ELT battery.
- If the aircraft must be flown to another airport to these inspections, the wing must obtain an FAA ferry permit for that flight.

d) Attach a copy of the log book page showing the replacement date and new expiration date of the ELT battery to the discrepancy in the DTS.

- List the POH, Log Book and AIF weight and balance dates, approved by Wing/CC, to prevent reoccurrence to the discrepancy in the DTS.

e) (Discrepancy): [xx] (C4 Question 5) Wing failed to ensure the weight and balance forms were accurate in the POH, Aircraft Information File (AIF), Log Book and any Wing pilot aids IAW CAPR 66-1 para 12 and 14CFR 23.1583.
- List the POH, Log Book and AIF weight and balance dates, weights and moments to the discrepancy in the DTS.

- Attach a copy of POH, AIF and Log Book entries with correct weight and balance dates, weights and moments to the discrepancy in the DTS. Attach a plan of action, approved by Wing/CC, to prevent reoccurrence to the discrepancy in the DTS.

f) Attach a copy of Log Book entry showing completed corrosion control to the discrepancy in the DTS.

- Attach a plan of action, approved by Wing/CC, to prevent reoccurrence to the discrepancy in the DTS.

g) Attach a copy of POH and Log Book entry showing completed 337s the discrepancy in the DTS.

- Attach a plan of action, approved by Wing/CC, to prevent reoccurrence to the discrepancy in the DTS.
f) Was the annual/biennial corrosion control accomplished?

f) (Discrepancy): [xx] (C4 Question 5) Wing failed to ensure the biennial corrosion control accomplished on N____ IAW CAPR 66-1 para 7.4.5.

g) Are FAA Form(s) 337, Major Repair and Alteration (Airframe, Power plant, Propeller, or Appliance) documented in the maintenance logs?

g) (Discrepancy): [xx] (C4 Question 5) Wing failed to ensure that all FAA Form(s) 337, Major Repair and Alteration (Airframe, Power plant, Propeller, or Appliance) were documented in the maintenance logs for N____ for (describe the repair or alteration) IAW 14CFR part 91-417.

h) Are logbook entries accurate and mid-cycle oil change completed?

h) (Discrepancy): [xx] (C4 Question 5) Wing failed to ensure the (airframe) (engine) (propeller) logbooks for N____ had logbook entry for the mid-cycle oil change completed on __/__/____ IAW CAPR 66-1 para 7.1.

i) Are Aircraft Information Files (AIF) maintained/serviceable/accurate/current in all corporate aircraft?

i) (Discrepancy): [xx] (C4 Question 5) Wing failed to ensure Aircraft Information Files (AIF) were maintained/serviceable/accurate/current in all corporate aircraft IAW CAPR 70-1 para 2-4 e.

</table>

a) Attach photo evidence of the correct placard installation with a statement relating to reflect that all wing aircraft contain the required placards to the discrepancy in the Discrepancy Tracking System (DTS).

b) Attach photo evidence of the fire extinguisher showing that it was serviceable/properly secured and a statement relating to reflect that all wing aircraft fire extinguishers are serviceable/properly secured to the discrepancy in the DTS.

c) Attach photo evidence of the correct CO detector installation and a statement relating to reflect that all wing aircraft CO detectors are correctly installed in the discrepancy in the DTS. Attach a plan of action, approved by Wing/CC, to prevent reoccurrence to the discrepancy in the DTS.

d) Attach photo evidence of installed survival kit and a statement relating to reflect that all wing aircraft have survival kits correctly installed in the discrepancy in the DTS.
d) Are survival kits installed?

IAW CAPR 66-1 para 10.4.
- was installed IAW CAPR 66-1 para 10.4.

d) (Discrepancy): [xx] (C4 Question 6) Wing failed to ensure that survival kits were installed in N____ IAW CAPR 66-1 para 10.5.

(AoC): Wing failed to ensure that contents/expiration dates for wing mandated items were IAW with wing guidance.

f) Are aircraft tires properly inflated?

f) Determined during aircraft inspection using inspection checklist.

NOTE: There are no regulatory tire pressure tolerances. If during the inspection an aircraft tire is found to not be in safe working order, then the discrepancy will be listed as an A-Discrepancy.

f) (Discrepancy): [xx] (C4 Question 6) Wing failed to ensure aircraft tires were in safe working order IAW Pilot Operating Handbook (POH) and CAPR 66-1 Attachment 1 para 8.

NOTE: List the following
- List the aircraft and actual tire
- Attach a plan of action, approved by Wing/CC, to prevent reoccurrence to the discrepancy in the DTS.

e) Are aircraft properly secured?

NOTE: There are no regulatory tire pressure tolerances. If during the inspection an aircraft tire is found to not be in safe working order, then the discrepancy will be listed as an A-Discrepancy.

(Discrepancy): [xx] (C4 Question 6) Prior to the inspection, wing failed to properly secure aircraft IAW CAPR 66-1 para 17.

NOTE: List the following
- N____ (and) N____ were not properly tied down with the wheels chocked.
- The pitot cover was not installed on (N____) (and) (N____).
- The control lock was not installed on (N____) (and) (N____).

NOTE: Attach documentation of steps taken to re-emphasize the need to secure aircraft at all times that aircraft are parked and left unattended to the discrepancy in the DTS.

f) Attach a copy of documentation of steps taken to re-emphasize the need to ensure tires are properly inflated to the discrepancy in the DTS.

NOTE: Attach a copy of the corrected POH page reflecting the proper tire inflation and a photo of the decal or marking in the aircraft reflecting the proper tire pressures to the discrepancy in the DTS.

OR

Correct the discrepancy on the spot.

OR

g) Attach a copy of documentation of steps taken to re-emphasize the need to ensure tires are properly inflated to the discrepancy in the DTS.

NOTE: Attach a copy of the corrected POH page reflecting the proper tire inflation and a photo of the decal or marking in the aircraft reflecting the proper tire pressures to the discrepancy in the DTS.

OR

Correct the discrepancy on the spot.
g) Are aircraft hinge pins correct/serviceable/properly installed?

- Tire pressures in the Pilot Operating Handbook (POH) for Cessna 172 (N____) do not match the amended STC SA2196CE for the 180 HP engine conversion which raised the maximum gross weight of the aircraft to 2550 pounds. N____ is grounded until the wing corrects the checklist/POH and properly inflates the tires on this aircraft.

h) Is the aircraft external identification plate correct/serviceable/properly installed?

- h) (Discrepancy): [xx] (C4 Question 6) Wing failed to ensure aircraft (top)(bottom)(right)(left) hinge pin on N____ was properly installed or compliant with authorized replacement parts IAW with 14CFR 43.13 and CAPF 71 Item 3I.

i) Are either manufacturer's checklist or NHQ CAP approved checklist(s) used in aircraft?

- i) (Discrepancy): [xx] (C4 Question 6) Wing failed to ensure aircraft external identification plate on aircraft (N____) was properly secured to the aircraft fuselage exterior IAW CAPR 66-1 para 11.4 and 14CFR 45.11.

j) Is the aircraft POH/AFM current and complete?

- j) Correct the POH/AFM photo evidence of the installation of a POH/AFM to the discrepancy in the DTS.

k) Complete maintenance actions to comply with 14CFR and CAPR 66-1. Attach a plan of action, approved by Wing/CC, to prevent reoccurrence to the discrepancy in the DTS.

- k) (Discrepancy): [xx] (C4 Question 6) Wing failed to ensure either manufacturer's checklist or NHQ CAP coordinated/approved/signed checklist(s) were present in aircraft IAW CAPR 70-1 para 9.9.2.

h) Attach a copy of the logbook entry and photo evidence of the installation of a proper identification plate to the discrepancy in the DTS.

i) Attach documentation of steps taken to ensure either manufacturer's checklist or NHQ CAP approved checklist(s) were used in aircraft IAW CAPR 70-1 para 2-1 n.
k) Are 14CFR requirements for inoperative instruments and equipment complied with?

k) Review Logbooks and WMIRS maintenance discrepancy log for inoperative equipment. Verify that 14CFR 91.213 was complied with? If aircraft operation is not authorized, was inoperative equipment deactivated and placarded "Inoperative."

j) (Discrepancy-A): [xx] (C4 Question 6) Wing failed to ensure AFM/POH cover page/contents for aircraft ______ was/were complete/accurate IAW FAA-H-8083-25A para 8-2 and 14CFR Sec 23.1581.

- List details

NOTE: List each discrepancy separately.

k) (Discrepancy): [xx] (C4 Question 6) Wing failed to ensure aircraft ______ was grounded IAW 14CFR 91.213. or Wing failed to ensure inoperative equipment was deactivated and placarded "Inoperative" IAW 14CFR 91.213.

- List details.
